## Experience

### TUTOR

**JUNE 2023 – PRESENT**

- Taught 30+ high school students in Calculus, Advanced Functions, and Computer Science, which increased average student grades by 15–20% over the course of a semester
- Conducted 5–7 tutoring sessions per week, focusing on problem-solving techniques and code comprehension
- Designed custom practice problems to reinforce learning, receiving positive feedback and referrals from students and parents

### FOOD BANK MANAGER | MCMASTER FCC

**SEPTEMBER 2023 – APRIL 2026**

- Orchestrated and facilitated monthly community cook-along workshops to promote nutrition education, healthy eating habits, and food security
- Maintained an inventory tracking system to monitor stock levels, minimize waste, and ensure a consistent supply for community members.
- Partnered with local organizations to secure donated resources and guest speakers for community events, fostering strong local relationships

### CAMP COUNSELLOR | YMCA

**JUNE 2025 – AUGUST 2025**

- Supervised and mentored groups of 10–12 children (ages 8–12) during daily camp activities
- Led 8+ hands-on STEM projects, including simple coding games and robotics kits
- Improved campers' engagement with science by 30% (measured via end-of-camp survey feedback)
- Collaborated with a team of 6 counselors to ensure smooth operations and child safety

### TEACHER'S ASSISTANT | OLIVE GROVE SCHOOL

**SEPTEMBER 2023 – PRESENT**

- Worked with the primary teacher to manage the classroom and assisted with student assessments and communicating with parents
- Supported in planning and executing themed weekly activities that integrated educational elements, including basic nutrition and fitness concepts.

## Awards

### SCHULICH LEADER NOMINEE

- Selected as the sole nominee from a graduating class of 250 students to represent Loyola Catholic Secondary School for Canada's premier STEM scholarship.
- Recognized as the top candidate for demonstrating a unique combination of academic excellence, entrepreneurial leadership, and technical innovation.
- Distinguished as a future leader in STEM based on a proven track record of community impact and a commitment to solving complex problems through technology.

### MACHACKS HACKATHON | AI-INTEGRATED DAILY PLANNER

- Ranked in the Top 10 for developing a smart productivity tool that automates schedule consolidation from Outlook, Google Calendar, and Avenue2Learn.
- Integrated LangChain and LLMs to build an intelligent "Priority Engine" that parses task descriptions to automatically assign urgency levels and estimated durations. Developed a full-stack architecture using React.js and Express.js, enabling seamless data synchronization across multiple third-party APIs.
- Engineered AI-driven logic to transform raw academic deadlines into a personalized, hour-by-hour execution plan, optimizing time management for students.

## Education

### SOFTWARE ENGINEERING | MCMASTER UNIVERSITY

**SEPTEMBER 2025-JUNE 2029**

- Relevant Courses: Integrated Cornerstone Design Projects in Engineering (1P13)
